

Naiandra M.

Product Designer | Design Systems | UX Strategy | AI & EdTech

Portfólio — Product Designer

ABOUT ME

Product Designer with 8+ years of experience designing digital products across EdTech, AI, fintech and social impact initiatives.

With a background in Psychology, I bring a behavioral and human-centered perspective to product strategy, accessibility and user experience design.

My work focuses on transforming complexity into intuitive, scalable and accessible experiences through design systems, UX strategy, prototyping and cross-functional collaboration.

Recently, I've been designing AI-powered educational products, gamified learning experiences and scalable interface ecosystems for multi-product environments.

EXPERIENCE

FTD Educação — Product Designer

Mar 2026 – Present · Remote, Brazil

Product Designer working on digital learning experiences and scalable interface systems for educational platforms focused on science and interactive content.

- Leading the redesign and modernization of a large-scale interactive Periodic Table experience, improving information hierarchy, usability and educational navigation flows
- Structuring scalable UI components, semantic color systems and interaction patterns to support accessibility, responsiveness and future product evolution
- Designing high-fidelity prototypes and interactive experiences focused on exploratory learning, engagement and intuitive data visualization
- Collaborating with multidisciplinary teams across product, education and

engineering to align user needs, technical feasibility and pedagogical goals

- Supporting the evolution of Design System foundations, including variables, reusable components and documentation for scalable implementation

Key Achievements

- Reduced interface complexity and visual overload through clearer navigation and modular interaction patterns
- Improved consistency and scalability by organizing component structures and semantic design tokens
- Contributed to more interactive and learner-centered educational experiences through UX-focused redesign decisions
- Strengthened collaboration between design and development through structured prototyping and system thinking

Zup Innovation — Product Designer

Jun 2024 – Nov 2025 · Remote · São Paulo, Brazil

Product Designer focused on AI-powered educational experiences, accessibility and scalable design systems.

Led the creation of the Atlas Design System, establishing reusable foundations, token structures and scalable UI patterns across educational products.

Designed gamified learning journeys and interaction flows for Coda Mundo, improving engagement and supporting digital learning experiences for 3,000+ students.

Contributed to the conversational UX strategy and accessible interface design for IA no Corre, an AI literacy initiative focused on underserved communities and users with limited access to digital literacy resources.

Conducted discovery research, usability testing and iterative prototyping with socially vulnerable youth audiences, translating behavioral insights into more inclusive and intuitive experiences.

Collaborated closely with PMs, developers and educators through continuous validation cycles, strengthening alignment, documentation standards and delivery consistency across teams.

Key Achievements

- Increased design team delivery speed by 40% through the implementation of the Atlas Design System
- Structured scalable foundations for AI-driven educational products
- Designed gamified experiences impacting 3,000+ students
- Improved documentation and design workflows, reducing rework and increasing consistency across teams
- Contributed to the evolution of IA no Corre's visual identity and communication tone

Core do Brasil – Product Designer

Feb 2024 – Jun 2024 · São Paulo, Brazil

Product Designer working on a cross-border transportation platform focused on scalable mobile experiences across LATAM markets.

- Redesigned onboarding, payment and authentication flows, improving usability and reducing friction in critical user journeys
- Created scalable UI foundations and visual guidelines adopted across 3 LATAM markets
- Conducted user research and interviews with Peruvian customers to identify behavioral patterns and regional usability gaps
- Developed mobile-first prototypes and collaborated closely with engineering and business teams to support scalable product decisions

Key Achievements

- Improved Ontax platform usability and interface clarity by 25%
- Redesigned 30+ high-impact screens, strengthening onboarding and transactional experiences
- Helped consolidate product consistency through reusable interaction and interface patterns

Mob4Pay – UI/UX Designer

Jan 2022 – Mar 2024 · São Paulo, Brazil

UI/UX Designer responsible for the evolution of digital financial products across

mobile, web and self-service payment platforms.

- Led the redesign of the mobile-first app, web platform and payment kiosks, improving usability and transactional experiences
- Structured and maintained the White Label 2.0 Design System, creating scalable patterns across multiple platforms and B2B client implementations
- Defined information architecture and critical payment flows for onboarding, authentication and self-service operations
- Developed high-fidelity prototypes and collaborated closely with PMs and engineers throughout agile delivery cycles
- Supported the visual customization and implementation of solutions for 45+ B2B clients across national and international launches

Key Achievements

- Increased app conversion and sales by 25% after the redesign
- Reduced interface inconsistencies through a cross-platform Design System
- Improved onboarding and self-service experiences, reducing user friction and operational errors
- Optimized design handoff and communication workflows, accelerating critical deliveries

Yesjob – UI Designer

Jul 2021 – Dec 2021 · Brazil

UI Designer working across brand identity, interface design and design system foundations for a recruitment platform.

- Redesigned the company's visual identity in collaboration with the marketing team, creating brand guidelines, color systems and scalable visual assets
- Structured and documented the company's first Design System, improving interface consistency and supporting faster product delivery
- Designed web interfaces and recruitment platform experiences with a focus on usability and visual clarity
- Produced institutional and digital communication materials across social media and internal marketing channels

Key Achievements

- Established foundational UI patterns and documentation processes

- Helped consolidate brand consistency across digital touchpoints
- Supported cross-functional collaboration between marketing and product teams

Royal Camisetas — Social Media Designer

May 2017 – Jun 2021 · Uberlândia, Brazil

Designer responsible for branding, digital communication and marketing structure development for a retail apparel company.

- Led the company's rebranding process, redesigning the visual identity, logo and brand color system
- Structured and organized the internal marketing operation, supporting communication and campaign planning processes
- Created digital campaigns across Instagram, Facebook, Google Ads and email marketing channels
- Developed internal communication and engagement initiatives for a team of 10 employees
- Produced visual assets and promotional materials for both online communication and commercial campaigns

Key Achievements

- Increased Instagram-driven sales by 39% during 2020
- Helped strengthen brand positioning through a more consistent visual and communication strategy
- Supported the company's digital growth through integrated marketing and branding initiatives

EDUCATION

Faculdade Pitágoras — MBA in Graphic Design

2024 – 2025 · Uberlândia, Brazil

Faculdade Pitágoras — Bachelor's Degree in Psychology

2016 – 2021 · Uberlândia, Brazil

Courses & Professional Development

- Layer Lemonade – After Effects for Designers (2024)
- Udemy – Figma UI/UX Design Advanced: New Features (2024)
- TriploUX – UX Community Event & Workshops (16h)
- Udemy – Complete Web & Mobile Designer: UX/UI with Figma (2023)
